

Sweepmaster B800R
*Vacuum sweeper vehicles
for the dust-free cleaning*

Optimal for small and medium-sized areas

Sweepmaster B800R

Top quality from Hako – for thorough cleaning results without exhausting your budget

When considering the dust-free cleaning of small and medium-sized areas, you can't do better than the Sweepmaster B800R. It works according to the overhead throwing principle which ensures the hopper is filled to the full. This promotes uninterrupted work and a constant, first class sweeping performance. To ensure the machine continues to provide consistent cleaning results, the filter in the insert can be shaken clean occasionally. To clean it after completing work, it can be accessed from the clean side easily and quickly. The robust, steel frame construction in heavy-duty quality means the Hako-Sweepmaster is a machine for professional use which can clean surfaces thoroughly and efficiently for a number of years!

1) Take-it-Easy

A hopper system enabling simple emptying in a single operation

2) Maintenance-free battery drive

Environmentally friendly and long operating time. With on-board charger for charging at any power socket

4) Cleaning without leaving tracks

Large side broom for perfect sweeping results, robust collision protection

3) Filter cleaning

Shake the filter clean quickly and easily

5) Simple maintenance

Pivot up the seat and all the areas for maintenance are open for access

Sweepmaster B800 R

Technical data	B800R	B800 R 2 SB
Drive motor (V/W)	24/600	24/600
Sweeping drive (V/W)	24/600	24/600
Battery system (Ah)	24	24
Sweeping width (mm)	670	670
Sweeping width with side broom (mm)	890	1,110
Sweeping speed (km/h)	6	6
Sweeping performance (m ² /h) (complying with VDMA 24441)	5,340	6,660
Filter surface (m ²)	1.5	1,5
Dirt hopper (l)	2 x 25	2 x 25
Weight (ready to operate) (kg)	282	286
L/W/H (Height above steering) (mm)	1,282/908/1,219	1,282/998/1,219

Redefining performance

The Sweepmaster B800R combines the compact dimensions of a walk-behind machine with the convenience and performance range of a ride-on machine – 100% Hako:

- solid, robust construction
- value retention
- perfect sweeping results
- excellent dust vacuum and filter cleaning
- long battery operating time of up to 3.5 h
- integrated charger

Intelli-Flap®

The innovative flap to accommodate larger debris makes light work of clearing up small, difficult items, such as screws from a smooth surface: Simply drive over them and the Intelli-Flap® gives way at the collection point without interrupting the overall sealing function for the sweeping facility.

Take-it-Easy – the convenient hopper system

The operating handle at the rear lowers the hopper – to throw in larger debris or for easy removal. The dirt hoppers in the Sweepmaster B800R are divided up (2 x 25 l). This means the weight can be better distributed and the hoppers are easier to empty.

Hako: environmental-friendly right from the start

It is our legacy to leave behind a clean planet. That is why resources-, environmental- and climate protection characterizes each and every process at Hako which has been certified by independent institutions. Learn more about our on-going commitment at www.hako.com.
